PRAISE NADAYAG

WEB DEVELOPER

I am a web developer who designs, builds, and launches real websites from start to finish. I've shipped a live business website with online booking and automated email receipts, a kiosk app for a photobooth business, and a rental listing platform with a Supabase backend. Skilled in HTML, CSS, JavaScript, Supabase, GitHub, and Vercel deployment with custom domains.

EXPERIENCE

WEB DEVELOPER

KLX Iligan Receipt Photobooth **2026 – Present**

- Designed, coded, and launched the business website using HTML, CSS, and JavaScript
- Built an online booking system with QR code down payment
- Set up automated email receipt confirmations for every booking
- Managed deployment on Vercel with GitHub and a custom domain

APPLICATIONS DEVELOPER

KLX Photobooth Kiosk App **2026 – Present**

- Built the kiosk app used at the photobooth during live events
- Developed and maintained the app for real customers in a working business

WEB DEVELOPER

Tahanan Rental Platform **2026 – Present**

- Building a rental listing platform for students and workers in Iligan City
- Set up a Supabase backend for owner accounts and listings
- Designed an admin approval and owner ID verification flow

PERSONAL PROJECT

Tag Quest: HTML Learning Game **2026**

- Built a browser game that teaches HTML to students and beginners
- Created Easy, Normal, and Hard modes with 40+ questions, hints, lives, and a timer
- Deployed live on Vercel as part of my portfolio site
